

Environmental Laboratories in WA State Accredited for Drinking Water Analyses Washington State Department of Ecology - Lab Accreditation Program

Sorted by County and City

The WA State Department of Health recommends testing private water supplies annually for Coliform bacteria and every three years for Nitrate. Please refer to the WA State DOH Office of Drinking Water's website (<http://www.doh.wa.gov/CommunityAndEnvironment/DrinkingWater.aspx>) for information on private water supplies and for detailed information on water sampling techniques. For general information on private wells, please refer to http://water.epa.gov/drink/info/well/upload/2003_06_03_privatewells_pdfs_household_wells.pdf.

Some of these labs may be accredited for analytes in addition to drinking water analyses.

Refer to the Lab Accreditation Program's internet site for the all of the labs' analyses.

The address is <https://fortress.wa.gov/ecy/laboratorysearch/>

For questions or additional information, contact the Lab Accreditation Unit (360) 871-8840.

To search for laboratories that analyze for Lead and Copper - find your county of interest, see the list of laboratories in that county, look at the information under the lab's name to find the category "Metals" see that the list includes Lead and Copper.
