RE: Notice of Administrative Extension for State Waste Discharge Permit No. ST0009272 for Desert Wind Winery, Effective October 1, 2016

Dear Mr. Fries:

Thank you for your application for renewal of State Waste Discharge Permit No. ST0009272 on November 16, 2015. It was reviewed and accepted as complete on November 19, 2015. Because of workload and staffing issues, the Department of Ecology (Ecology) is unable to reissue your permit prior to expiration. When the permit writer assigned to write your permit begins developing a draft permit, you may be asked to provide additional or updated information.

Your administratively extended permit becomes effective **October 1, 2016**, the day following expiration of your existing permit. It will remain in force for up to five years or until further notice by the Department, whichever occurs first. **That means your facility must continue to comply with the terms and conditions of the previous permit, issued on August 30, 2011.**

Your permit fee is subject to the same fee schedule as before. Permit fee billing will be in a separate mailing from the Ecology Fee Unit.

If you have any questions or need assistance, please feel free to contact Jim Leier, your permit manager at 509/457-7124.

Sincerely,

A handwritten signature in cursive script that reads "David B. Bowen".
