

NOTICE: ANNOUNCEMENT OF AVAILABILITY OF DRAFT PERMIT

PERMIT NO.: WA0023183

APPLICANT: City of Cashmere

The City of Cashmere has applied for renewal of National Pollutant Discharge Elimination System (NPDES) Permit No. WA0023183 in accordance with the provisions of Chapter 90.48 Revised Code of Washington (RCW) and Chapter 173-220 Washington Administrative Code (WAC), and the Federal Clean Water Act.

The City of Cashmere presently owns or operates a wastewater treatment plant which is designed to handle an maximum month design flow of 1.23 million gallons per day. The wastewater, following treatment, must meet the requirements of the Washington State Water Pollution Control Act and applicable regulations for a permit to be issued.

Following evaluation of the application and other available information, a draft permit has been developed which would allow the discharge of treated domestic wastewater from 2 Riverfront Drive, Cashmere, WA to Wenatchee River, River Mile 8.6. All discharges to be in compliance with the Department of Ecology's Water Quality Standards for a permit to be issued.

A tentative determination has been made on the effluent limitations and special permit conditions that will prevent and control pollution. A final determination will not be made until all timely comments received in response to this notice have been evaluated.
