

Lab Search Progress Report  
January 1<sup>st</sup>, 2023

Department of Ecology NWRO  
PO Box 330316  
Shoreline, WA 98133  
Attention: Jeanne Tran

Jeanne,

We have continued to collaborate with other wood treaters and the chemical supplier, Viance. We are still waiting for the review and feedback from Viance regarding the possible lab prospect mentioned last update. As we were unable to find an accredited lab to analyze DCOI prior to 1/1/2023, please accept this letter as our final report per our NPDES permit.

To briefly summarize our efforts in our lab search that has been detailed in past progress reports: We have worked with other wood treaters, industry consultants, and the chemical supplier to identify an accredited lab to analyze DCOI. We were unsuccessful in this effort.

Thank you,

---
