RE: Facility Name Change for National Pollutant Discharge Elimination System (NPDES)
WA0045586 – Lehigh Cement Company

Dear Gregory Ronczka:

The Department of Ecology (Ecology) received a letter dated December 23, 2022 requesting to change the facility name for NPDES permit WA0045586 from Lehigh Cement Company, LLC to Heidelberg Materials. A transfer form was also received February 22, 2023, a copy of the letter and the form are included at the end of this letter.

The form, when completed and signed by both the old and new parties, and approved by Ecology, automatically transfers the permit to the new owner/operator. By signing the form, the new owner/operator agrees to assume all responsibility, coverage, and liability of the permit as of the effective date of the sale or lease. Ecology accepted the form on February 22, 2023 with the permit transfer effective January 1, 2023.

Ecology is unable to change the business name on the permit because the permit is currently expired and has been administratively extended; the name will officially change when a renewal permit is issued.

As a reminder, General Condition G4 of the NPDES permit requires you to give notice to Ecology, as soon as possible, but no later than 180 days prior to any proposed physical alterations or additions to the permitted facility, production increases, or process modification which will result in: 1) the permitted facility being determined to be a new source pursuant to 40 CFR 122.29(b); 2) a significant change in the nature or an increase in quantity of pollutants discharged; or 3) a significant change in the Permittee's sludge use or disposal practices.

Please contact Diana Washington at (509) 385-5529 or by email at Diana.Washington@ecy.wa.gov if you have questions about the name change for the permit

Sincerely,

Adriane P. Borgias
Section Manager
Water Quality Program

Subject: Lehigh Hanson becomes Heidelberg Materials

Dear Valued Supplier,

As you may already know, Lehigh Hanson, Inc. and its subsidiaries are rebranding to Heidelberg Materials effective January 1, 2023. This transition emphasizes our connection to our new global brand and better conveys our focus on offering a broad range of products and services to our customers.

Lehigh Hanson's evolution to Heidelberg Materials reflects our much broader and innovative approach to serving our customers while also sending a clear message that we are part of a global brand with its sights set on becoming the industry leader in sustainability and digital solutions. The new name will unify our many legacy brands and nearly 9,000 employees in North America to better serve our customers, engage the local communities and drive the sustainable and circular economy.

We would like to take this opportunity to ensure you were aware of this exciting transition and reassure you that we will work with you closely going forward to ensure a smooth transition.

You will receive additional information about this change in the near future. Please refer to the new legal entities list. If you have procurement specific questions (e.g. contract renewal, PO questions, etc.), please reach out to your relevant Lehigh Hanson contact. If you require W-9 forms, please reach out to our vendor support team at namvendorsupport@lehighhanson.com. NOTE: The legal entity name changes do not result in any changes to the IRS tax identification numbers/CRA business numbers, state/country/province of incorporation/formation, or the company organizational structure.

Thank you for your support as we move forward as Heidelberg Materials.

Sincerely,

Benjamin Zurita
VP Procurement

Figure 1: Lehigh Hanson Facility Name Transfer Form

Transfer of Permit to a New Owner/Operator for Individual National Pollutant Discharge Elimination System (NPDES) or State Waste Discharge Permits

This form, when completed and signed by both parties, and approved by the Department of Ecology, automatically transfers the permit as specified in the table below, in accordance with WAC 173-216-120 and WAC 173-220-200. By signing this form, the new owner/operator agrees to assume all responsibility, coverage, and liability of the permit, as of the effective date of the sale or lease. The permit transfer for any facility shall not be valid if there is or will be any significant change from the existing permit in facility operations, discharge volume, or discharge characteristics, as determined by the Department of Ecology. If such changes are or will be present, the new owner/operator shall immediately notify the Department of Ecology at an address listed below. If you have any questions, please contact your regional Permit Coordinator at the phone number listed at the bottom of this form.
