**Re: State Waste Discharge Permit Fee Category Change for
Permit Number: ST3861**

Dear Mr. Jefferson:

The Ecology Northwest Regional Office recently modified the state waste discharge permit for this facility. This modification changes the permit fee subcategory assessment previously used to determine the FY2001 permit fee.

Based on the flow information provided to me, the fee has been changed to the following:

Category: Food Processing
Subcategory 1 G – 500,000 - < 750,000 gpd
Subcategory 2: N/A
Permitted Discharge Flow: 630,000 gpd
FY2001 Permit Fee: \$ 20,756.00

If you do not agree with the changes made to your permit fee assessment, you may file an administrative appeal to the department stating the reasons you believe the new fee determination is not consistent with RCW 90.48.465 (enclosed). The department will either issue a revised determination or a statement upholding the original determination.

**Re: Wastewater Discharge Permit Fee Category Change
Permit Number: ST3861**

Dear Mr. Jefferson:

The Ecology Northwest Regional Office recently issued a new wastewater permit for this facility which has resulted in a change to the permit fee subcategory for State Fiscal Year 1999. The effective date of this change is July 1, 1998.

Based on the information provided to me by the permit manager, the permit fee subcategory and annual fee have been changed to the following:

NOTICE – THIS IS NOT A BILL

Category: Food Processing
Subcategory 1: F – 250,000 - < 500,000 gpd
Subcategory 2: N/A
Permitted Discharge Flow: < 450,000 gpd gpd
Annual Permit Fee: \$ 15,564.00

Ecology records indicate we have received \$5,918.00 toward Fiscal Year 1999. The balance due totaling \$ 9,646.00 will be mailed out in either late January or early February.
