Re: Wastewater Discharge Permit Fee

Dear Permittee:

The Ecology Northwest Regional Office recently issued your facility a new state waste discharge permit which changes the permit fee category/subcategory previously assessed.

Based on the new information contained within the new permit, the permit fee category has been changed to reflect the following:

Permit Number: ST3861
Category: Food Processing
Subcategory: F - 250,000 - < 500,000 gpd
FY95 Annual Fee: \$13,097.00
Prorated FY95 Fee: \$11,464.00

The fee was prorated to reflect the 190 days the permit was active under the previous fee category and the 175 days the new fee category will be in effect.

You should be hearing from the fiscal office shortly regarding the adjustment made to your billing. If you do not agree with the changes made to your permit fee assessment, you may file an administrative appeal to the department stating the reasons you believe the new fee determination is not consistent with either RCW 90.48.465 or WAC 173-224. The department will either issue a revised determination or a statement upholding the original determination.

Please call me at (360) 407-6425 if you have any questions.

Sincerely,

Beverly A. Poston
Fee Program Administrator
Water Quality Program
