RE: New Facility Permit Manager for Permit No. ST0009236—Puget Sound Energy

Dear Gerald Klug:

I am writing to introduce myself as your new facility permit manager for the Department of Ecology's (Ecology) Water Quality Program. My name is Marcia Porter and my pronouns are she/her/hers.

Your permit sets certain limits for the discharge of wastewater and requires monitoring and reporting at specified intervals. I will be reviewing your discharge monitoring reports and contacting you regarding any irregularities that may be found. Your facility is also subject to routine compliance inspections.

As your permit manager, I am available to answer any questions you may have regarding your permit or general questions about the Water Quality permitting program. You should also contact me regarding any problems you may encounter, such as spills or equipment failures which impact your wastewater discharge. Additionally, please feel free to contact me concerning any discharge permit concerns that you believe Ecology could assist you with.

I look forward to being your permit manager and developing a working relationship to maintain water quality in Washington state. My schedule is primarily a telecommute schedule, so the best way to contact me is via the cell number 509-406-6624 or via email to marcia.porter@ecy.wa.gov.

Sincerely,

Marcia Porter
Environmental Specialist 4
Water Quality Program
Ecology, Central Regional Office (CRO)
