RE: Upload of Laboratory Reports for National Pollutant Discharge Elimination System
(NPDES) Permit WA0000892 – Kaiser Aluminum Washington

Dear Kevin Barron:

Special Condition S3 of your NPDES permit requires you to submit a copy of the laboratory report as an attachment to your discharge monitoring report (DMR) into WebDMR when an outside laboratory performs the analysis for your facility's samples. Please upload copies of laboratory reports with your facility's DMR submittals. If utilized, contract laboratory reports must include information on chain of custody, QA/QC results, and documentation of accreditation for the parameter.

Please contact Pat Hallinan, Permit Manager, at (509) 329-3500 if you have questions about providing laboratory reporting or if you would like instructions on how to upload the attachment to your DMR in the WQWebPortal system.

Sincerely,

Art Jenkins, PE.
