

Toxicity Testing Memo  
October 17<sup>th</sup>, 2021

Department of Ecology NWRO  
PO Box 330316  
Shoreline, WA 98133  
Attention: Jeanne Tran

Jeanne,

Sections S10 and S11 require yearly acute and chronic toxicity testing on the final effluent starting in September. This Memo is to notify that we did not have a qualifying rain event in September 2023 and are currently waiting for the next qualifying event to sample and test to fulfill this requirement.

Thank you,

Kevin Moseley

Technical Director
