Dear Mr. Hallinan,

Subject: 2023 Operations and Maintenance Manual Review

In accordance with the State Water Discharge Permit Number ST 8121 issued by the State of Washington Department of Ecology, Special Condition S4.A. Operation and maintenance, REC has conducted the annual review of their Operations and Maintenance Manual. This letter is being uploaded through the WQWebDMR. The only changes were to the Contacts & Responsibility page where 2 people were replaced with new folks, no other changes were made. REC reviews most work procedures on an annual basis and the current copies are kept in electronic databases.

Best regards,

Cynthia Schultz
Health, Safety & Environmental Manager
