RE: City of Cle Elum Permit #WA0021938
Operations and Maintenance Manual

Dear Mr. Miller,

As required under the National Pollution Discharge Elimination System Permit, Waste Discharge Permit #WA0021938, issued on August 22, 2019 and effective October 1, 2019. I am writing to inform you that, per permit Special Conditions S5.G. Operations and Maintenance (O&M) manual, the O&M manual for the City of Cle Elum Upper Kittitas County Regional Wastewater Treatment Facility has been thoroughly reviewed and there are no changes required at this time.

All of the equipment that was originally installed in 2005 when the plant was built, is still in operation and is being maintained and operated as per the original manufacturer's specifications. Operational process control strategies remain unchanged and are effective at consistently meeting permit limitations. A copy of the O&M manual is maintained on site and available for review.

Should you have any questions please do not hesitate to contact me.

Sincerely,

William LaRue, Project Manager
