

STATEMENT OF BASIS
NUSTAR TERMINALS OPERATIONS PARTNERSHIP
STATE WASTE DISCHARGE PERMIT ST 6255
November 1, 2023

1. GENERAL INFORMATION

Facility: NuStar Terminals Operations Partnership L.P. (NuStar)
5420 Northwest Fruit Valley Road
Vancouver, WA 98660

2. BASIS FOR PERMIT MODIFICATION

Ecology received an email dated October 20, 2023, with an attached letter dated October 18, 2023. The email was from Neil Alongi with Maul Foster and Alongi. The letter was signed by Neil Alongi and Kristi Boon. The last paragraph of the letter requested the following:

*Given the delays in receiving comments for the Engineering Report and the time needed to appropriately coordinate and respond to agency comments, NuStar would like to request to submit **conceptual plans** and an operation and maintenance manual as well as a **permit modification to change the due date of the plans and specifications to May 1, 2024.***

Ecology concurs with the request and modifies the State Waste Discharge Permit accordingly, allowing submittal of the conceptual plans ([WAC 173-240-110\(5\)](#)) and extending the due date of the conceptual plans to May 1, 2024.
