Re: Conceptual Plan Approval
Permit No. ST0007377; Ocean Beauty Seafoods LLC

Dear Max Kenagy:

Ecology received the final conceptual plan for Ocean Beauty Seafoods LLC (Ocean Beauty) wastewater treatment system upgrade via email on December 22, 2023. Ecology authorized Ocean Beauty to submit a conceptual plan in lieu of a full engineering report as allowed in WAC 173-240-110(5). In accordance with RCW 90.48.110 and Chapter 173-240 WAC, Ecology approves the conceptual plan.

The December 22, 2023 conceptual plan compiled by Ocean Beauty staff and Clear Creek Systems provides the design details for improved pH neutralization of the process wastewater in order to consistently meet permit limits prior to discharge to the City of Monroe sewer system.

Ecology's review is limited to determining whether the proposed facility will meet effluent limits and other requirements of the applicable state waste discharge permit. Ecology does not assume responsibility for quality control of the design or the completeness, accuracy, or adequacy of the documents. This approval does not relieve the permittee from compliance with any other local, state, or federal laws and regulations.
