**RE: Modification of NPDES Waste Discharge Permit No. WA0991033 for Rocky Reach Dam  
Effective April 25, 2024**

Dear Jennifer Burns:

Enclosed is your Modified National Pollutant Discharge Elimination System (NPDES) Waste Discharge Permit No. WA0991033 which has been issued in accordance with Chapter 90.48 RCW, as amended, and the Federal Water Pollution Control Act, as amended. This Modified NPDES Permit satisfies the requirements of both federal and state laws.

The modified permit is identical to the original permit, with the exception of reduction in flow monitoring, listed in Section S2.A. This reduction in flow was agreed upon after a public comment generated by Chelan County PUD. Due to a typographical error this change was not included in the final version of the issued permit. Please have your staff replace the original page of the permit with this revised page for each copy of the permit made. The page is clearly marked at the bottom **"This footnote was added after the public commenting period in response to a provided comment and updated again April 17, 2024"**.

**Appeal Process**

You have the right to appeal this permit within 30 days upon receipt of this document. Pursuant to chapter 43.21B RCW, your appeal must be filed with the Pollution Control Hearings Board, and served on the Department of Ecology, within 30 days of the date of your receipt of this document.

If you choose to appeal this action or decision, your notice of appeal must contain:

- (1) A copy of the permit you are appealing, and
- (2) A copy of the application for the permit.
