Publication Cost: \$924.00

Order No: 80623

Customer No: 480

PO #:

Marine Fluid Systems has reapplied for a National Pollutant Discharge Elimination System (NPDES) permit in accordance with the provisions of Chapter 90.48 RCW Revised Code of Washington, Chapter 173-220 WAC Washington Administrative Code and the Federal Clean Water Act.

The wastewater, following treatment, must meet the requirements of the Washington State Water Pollution Control Act and applicable regulations for a permit to be issued. Following evaluation of the application and other available information, a draft permit has been developed which would allow the discharge of marine railway floodwater to the Lake Washington Ship Canal.

A tentative determination has been made on the effluent limitations and special permit conditions that will prevent and control pollution. A final determination will not be made until all timely comments received in response to this notice have been evaluated.

**PUBLIC COMMENT  
AND INFORMATION**
