RE: Administrative Extension for State Waste Discharge Permit No. ST0501278 for Iron Horse Brewery, Inc., Effective November 1, 2024

Dear Gregory Parker:

The Washington State Department of Ecology (Ecology) acknowledges receiving an application for renewal of State Waste Discharge Permit No. ST0501278 on April 18, 2024. The application was reviewed and accepted as complete on July 16, 2024. Your current State Waste Discharge Permit has an expiration date of October 31, 2024. Renewal of your permit is in process; however, the permit may not be issued by the expiration date.

If your new permit is not issued and effective by the current permit's expiration date, then the current permit and its terms and conditions are hereby administratively extended effective **November 1, 2024**, the day following expiration of your existing permit. **It will remain in effect and enforceable until Ecology issues a new permit for your facility.**

That means your facility must continue to comply with the terms and conditions of the previous permit, issued on September 26, 2019. During the permit renewal process, Ecology may determine that additional information is necessary to complete the permit. In order to maintain complete application status, Iron Horse Brewery, Inc. must provide any additional information Ecology may request in a timely manner.

Iron Horse Brewery, Inc.
