Solid Waste Management Plan

State Waste Discharge Permit Number ST0009236

1. Plant Contacts: Fred Best – Plant Manager
(509) 773-7902

Ruth Juris
(509) 773-7919

2. Plant Description

The Goldendale Generating Station (GGS) is a Natural Gas fired 297 MW Combined Cycle Electric Generating Plant located in Goldendale Washington.

3. Waste Description, Handling and Disposal.

The plant generates solid wastes from office and maintenance activities including paper and wood products, food waste, scrap metal and metal components, empty product containers, rags, etc.

This general trash is placed in portable roll-off containers of 13, 20 and 40 yard capacities and is periodically picked up by a trash removal contractor.

The waste hauling contractor utilized by GGS is:

Republic Services
925 N. Fairgrounds Rd, Goldendale WA. 98620
Tel: (509) 773-5825

4. Dangerous or Universal Waste

Dangerous waste, waste oil, oily waste or universal solid wastes, batteries, fluorescent light bulbs etc. are collected and stored on-site in approved, appropriately labeled containers located in a designated Hazardous Waste Shed.

The Hazardous Waste and Universal Waste removal contractor utilized by GGS for disposal of these type products is:

CCS- A Division of PNE Corp
1121 Columbia Blvd.
Longview, WA 98632
360-423-2272
