RE: Application for Renewal of State Wastewater Discharge Permit No. ST0009213

Dear Scott Wingert:

The Department of Ecology (Ecology) issued Permit No. ST0009213 authorizing Kenyon Zero Storage Prosser Facility to discharge process wastewater to an evaporation lagoon. This permit is due to expire on December 31, 2025, and requires an application for its renewal in order to continue discharging wastewater into state waters. Ecology has been issuing all recent State permits with a one-year advance requirement for application submittal, based on the lead time required to prepare modern permits.

Completing the Application

Permit application form 040-179 is enclosed. I am also enclosing a copy of your expiring permit and February 6, 2017 application. Application form 040-179 is available on the Ecology website at <https://ecology.wa.gov/Water-Shorelines/Water-quality/Water-quality-permits/Water-Quality-individual-permits#form>.

Please complete all of the enclosed permit application. Please submit any additional information that you feel may help Ecology determine the potential impact of your discharge upon the groundwater.

Signature Delegation

Federal and state regulation (WAC 173-216-070) require applications to be signed as follows:

- For corporation, by a principal executive officer or at least the level of vice president.
- For a partnership or sole proprietorship, by a general partner or the proprietor, respectively.

The principal executive officer may delegate signature authority for submittals required by the permit such as monthly discharge reports to a specific, qualified individual or to a position that Ecology expects if filled with a qualified individual. Please submit a copy of the letter delegating signature authority along with the application for our files.

Submitting the Application

The Permittee must use the Water Quality Permitting Portal – Permit Submittals application according to Special Condition Section S3.B of your temporary permit. To submit all other written temporary permit-required reports by the date specified in the permit. Please scan any attachments to the application and submit in .PDF format.

AND

Please email, **signed application** by **December 31, 2024** to: crowqpermits@ecy.wa.gov.

Your permit application is a matter of public record. When Ecology decides to proceed with reissuance of your permit, a public notice will be issued to a newspaper of local circulation. This will allow the public to comment on Ecology's decision regarding your permit.

If you have any questions, please contact me at (509) 379-3967 or by email at crowqpermits@ecy.wa.gov.

Sincerely,

Joy Espinoza (signed electronically) 12/2/24
