RE: Application for Renewal of State Wastewater Discharge Permit ST0008024 –
Dunes Wastewater Treatment Facility

Dear Chris Campbell:

State Waste Discharge permit ST0008024 will expire on March 31, 2027 and requires an application for its renewal. To allow Ecology sufficient time to develop the City of Moses Lake's permit, a completed application must be received by our office on or before March 31, 2026. It is Ecology's policy to send a permit renewal application form as a reminder to help ensure a timely submittal.

Completing the Application

Please complete the enclosed application **form ECY 040-178**, State Application – Municipal Wastewater to Groundwater or visit Ecology's [Water Quality Individual Permit website](https://ecology.wa.gov/Water-Shorelines/Water-quality/Water-quality-permits/Water-Quality-individual-permits#forms)¹ to use an electronic version of the form.

Please complete all sections that apply, as well as any additional sections that may apply if there have been significant changes to the facility or the character of the wastewater have changed. Each section must be completed or marked with NA if it does not apply. Please submit any additional information that may help Ecology determine the impact of your discharge to groundwater.

Submitting the Application

Please mail the original, signed application to:

Water Quality Program
Eastern Regional Office
Department of Ecology
4601 North Monroe Street
Spokane, Washington 99205-1265

¹ <https://ecology.wa.gov/Water-Shorelines/Water-quality/Water-quality-permits/Water-Quality-individual-permits#forms>

Please also send an electronic copy of the application (preferably as a PDF) by email to the Water Quality Program at ewqpermits@ecy.wa.gov. Please scan any attachments to the application and submit them with the application.

Signature Delegation

A principal executive officer or ranking elected official, typically the mayor, must sign the application (WAC 173-216-070).

Please submit any additional information that may help Ecology determine the impact of your discharge to groundwater.

Permit Fees

Fees paid by permit holders support the wastewater permit program (RCW 90.48.465). Ecology regulation (Chapter 173-224 WAC) establishes annual permit fees to recover costs associated with issuing and managing wastewater discharge permits. Ecology will continue to collect annual permit fees unless the permit is formally cancelled. Please call 1-800-633-6193 (option 2) with questions about permit fees.

Laws and Guidance for Permits

Information on laws, regulations and guidance on wastewater discharge permits is available on Ecology's websites below:

- Visit [Regulations & Permits](https://ecology.wa.gov/Regulations-Permits)² for Ecology regulatory information
- Visit [Water Quality Permits](https://ecology.wa.gov/water-shorelines/water-quality/water-quality-permits)³ for Water Quality permit guidance.

Please contact Lindsey Forward at (509) 319-0929 or by email at lifo461@ecy.wa.gov if you have questions or need assistance with the application form.

Sincerely,

Shara Joy
Water Quality Program
