RE: Discharge Monitoring Report for Third Quarter 2010

Dear Industrial Stormwater Permittee:

Your facility has coverage under the Washington State Department of Ecology's (Ecology) Industrial Stormwater General Permit. This permit requires that you sample the stormwater discharge from your site and report the results to Ecology on a Discharge Monitoring Report (DMR). DMRs are an important requirement of your permit. You must submit your DMR even if your site did not discharge, or if you did not collect a sample. In these situations, you must mark the DMR with the appropriate reason for no discharge.

Ecology tracks DMR submittals and follows up with facilities that do not comply. Ecology noted the following for the 3rd quarter of 2010.

As of January 19, 2011, Ecology has not received a DMR for your Industrial Stormwater General Permit.

According to the permit:

- Even if your site did not discharge during the reporting period you must still submit the DMR, checking the box for "No Discharge" during the reporting period.
- If stormwater discharged from your facility and you did not collect a sample, please submit the DMR as soon as possible and explain why you did not collect a sample.
- If you collected samples and have not yet submitted the DMR, please submit the required DMR no later than February 2, 2011.

Industrial Stormwater Permittee

Ecology relies on complete and accurate DMR information to assess your compliance with permit conditions. Non-compliance with permit limits, monitoring requirements, and other conditions of the permit may result in enforcement action by Ecology. Compliance with this notification does not mean you have complied with all permit conditions.

If you need clarification or assistance, please feel free to contact Charles Gilman, Compliance Assurance and Enforcement Officer, at (360) 407-6437 or charles.gilman@ecy.wa.gov.

PLEASE NOTE: You can submit your DMRs electronically in a secure on-line system called WebDMR. Entering your own data will ensure timely compliance with your deadlines and accuracy in data entry. Ecology encourages you to read the information at:

<http://www.ecy.wa.gov/programs/wq/permits/paris/index.html>

If you have any questions about how to register for WebDMR, contact Ecology's WebDMR staff at WebDMR@ecy.wa.gov or (360) 407-7097.

Paper DMRs can be mailed to Ecology at:

Department of Ecology
