RE: Discharge Monitoring Report for Fourth Quarter 2010

Dear Industrial Stormwater Permittee:

Your facility has coverage under the Washington State Department of Ecology's (Ecology) Industrial Stormwater General Permit. This permit requires that you sample the stormwater discharge from your site and report the results to Ecology each quarter on a Discharge Monitoring Report (DMR).

Ecology is tracking DMR submittals. According to our records for the 4th quarter of 2010:

- As of April 13, 2011, Ecology has not received a DMR for your Industrial Stormwater General Permit.

According to the permit:

- Even if your site did not discharge during the reporting period you must still submit the DMR, checking the box for "No Discharge" during the reporting period.
- If stormwater discharged from your facility and you did not collect a sample, please submit the DMR as soon as possible and explain why you did not collect a sample.
- If you collected samples and have not yet submitted the DMR, please submit the required DMR no later than April 27, 2011.

Industrial Stormwater Permittee

Ecology relies on complete and accurate DMR information to assess your compliance with permit conditions. Non-compliance with permit requirements including; monitoring, DMR submittal, and other conditions of the permit may result in enforcement action by Ecology. Compliance with this notification does not mean you have complied with all permit conditions.

If you need clarification or assistance, please feel free to contact Charles Gilman, Compliance Assurance and Enforcement Officer, at (360) 407-6437 or charles.gilman@ecy.wa.gov.

PLEASE NOTE:

You can submit your DMRs electronically in a secure on-line system called WAWebDMR. Entering your own data will ensure timely compliance with your deadlines and accuracy in data entry. Ecology encourages you to read the information at:

www.ecy.wa.gov/programs/wq/permits/paris/webdmr.html

If you have any questions about how to register for WAWebDMR (formerly WebDMR), contact Ecology's WAWebDMR staff at WAWebDMR@ecy.wa.gov, or (360) 407-7097 (locally), or (800) 633-6193/option 3.

Paper DMRs can be mailed to Ecology at:

Department of Ecology
Water Quality Program - DMR Violation Response
PO Box 47696
