## 1. Benchmarks Exceeded

This report is based on samples collected during calendar year 2014.

Did you exceed the benchmark for any parameter during the above noted calendar year (Jan 1<sup>st</sup> – Dec 31<sup>st</sup>)?

**Note:** If you sampled a parameter (other than pH or visible oil sheen) at a discharge point more than once during a quarter, the average of the sample results must be compared to the benchmark.

Yes  - Complete Sections 2 and 3 and sign and submit the form as described in Section 4.

No  - Complete Section 2, skip Section 3, and sign and submit the form as described in Section 4.

Include any additional comments here:

## 2. Stormwater Problems Identified At the Facility

Instructions: Based on the best available information, briefly describe any potential or actual stormwater pollution problem(s) you identified during the previous calendar year (Jan 1<sup>st</sup> – Dec 31<sup>st</sup>).

- Sources of available information may include (but may not be limited to): SWPPP reviews, audits made by consultants or providers of technical assistance, inspection reports or other notification made by federal/state/local authorities, visual observations, and/or your facility's monthly site inspections (self-inspections).
- For each problem identified, provide the date you discovered the problem (estimate if necessary).
- Do not include problems discovered through stormwater sampling. This information is covered in Section 3.

**Date Problem Discovered:** 1/22/2014 **Describe the Problem:** During monthly inspection observed pile of scrap steel. Contacted scrap recycler and had the material picked up to be recycled.

### 3. Corrective Actions Planned or Taken

Instructions: Complete this section for each pollutant parameter (e.g., turbidity, copper) that exceeded a benchmark during the previous calendar year (Jan 1<sup>st</sup> – Dec 31<sup>st</sup>). The permit requires you to identify the condition triggering the need for corrective action review. To do this, indicate below which quarters had a sample result that exceeded the benchmark. If more than one sample was taken at a sample location, indicate which quarters had an average sample result that exceeded the benchmark. Note: If you exceeded the benchmark for more than one parameter (e.g., turbidity and zinc), make additional copies of Section 3 and complete one for each parameter.

**Pollutant Parameter:** Turbidity benchmark was exceeded during the following quarters (check all that apply):

- 1<sup>st</sup> Quarter (January, February, March)  
 2<sup>nd</sup> Quarter (April, May, June)  
 3<sup>rd</sup> Quarter (July, August, September)  
 4<sup>th</sup> Quarter (October, November, December)

Instructions: For the pollutant parameter above, summarize any Level 1, 2, or 3 corrective actions completed during the previous calendar year and include the dates you completed the corrective actions.

Level 1 corrective action
