RE: Ancient Lake Wine Company - State Waste Discharge Permit No ST0501285
2015 Engineering Report Update

Dear Mr. and Ms. Milbrandt:

The submitted engineering report provides the conceptual design for Phase 2 and 3 of the Ancient Lake Wine Company wastewater treatment facility. Ecology APPROVES the Engineering Report for Phase 2 and 3 of the wastewater facilities, dated February 4, 2015.

The above approval is in accordance with RCW 90.48.110 and Chapter 173-240 WAC. Please notify this office immediately of any proposed changes or revisions to the approved documents. Any such changes or revisions must be issued in the form of addenda, technical appendices, or supplemental reports to the original, approved package of documents and must be approved in writing by Ecology. Additionally, copies of the approved engineering report, plans and specifications, operations and maintenance manual, permit, and Discharge Monitoring Reports (DMRs) will be maintained on-site at your facility in George, Washington.

Ecology's review and approval of these documents assures compliance and consistency with the appropriate rules, regulations, guidelines, planning and design criteria, and/or other similar documents and is not a quality control check on the proposed design. Milbrandt Evergreen, Inc should not consider this approval as satisfying other applicable federal, state or local statutes, ordinances or regulations.

Please do not hesitate to contact Megan Rounds, P.E., at (509) 329-3458 if you have any questions or need any additional information.

Sincerely,

James M. Bellatty
Water Quality Section Manager
