**Action Required: Re-apply for the 2016 Construction Stormwater General Permit**

Dear Brent Scully:

You are receiving this letter because our records indicate that you have not re-applied for the 2016 Construction Stormwater General Permit (CSWGP) which expires on December 31, 2015. Your current permit and federal stormwater regulations require all existing Permittees to re-apply for the CSWGP at least 180 days before it expires. The Department of Ecology (Ecology) mailed you the first reminder April 1, 2015 and the second reminder August 31, 2015.

Please take the time to address this matter. ***Failure to re-apply for the CSWGP, may result in enforcement action including monetary penalties if construction at the site has not been completed by December 31, 2015.*** An instruction page for the online application process is enclosed for your convenience.

If you plan to terminate your permit, or have already submitted a Notice of Termination (NOT), please be aware that NOTs are subject to an Ecology inspection and must meet the criteria of Special Condition 10 of the CSWGP.
