Subject: Annual review of Environmental Plan (which includes Wastewater O&M Plan)  
Specialty Minerals Inc – Camas, WA  
Permit Number ST-0006103

This letter is to confirm the annual review (3/7/15) of the overall site Environmental Plan, as required under Section 4.A a.1 of State Waste Discharge Permit ST0006103, - effective date February 1, 2012. This Plan was developed to comply with Special Conditions S4A, S5C and S10<sup>1</sup> and was originally submitted to Mr. Teddy Le of the Department of Ecology in April, 2012. Mr. Le confirmed that this Plan met the various requirements listed above.

All employees reviewed the Plan requirements and were encouraged to provide suggestions for revising or improving the Plan. In addition, the contact names and numbers were reviewed to ensure continuing accuracy.

During this annual review, the following changes were made:

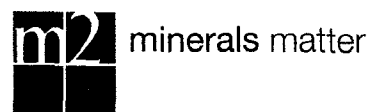

Changes to contact list

None of these changes are considered significant; therefore a revised copy of the Plan is not included in this notification. If requested, we will provide you with a copy of the Plan, either written or electronic.

---

<sup>1</sup> Certain sections of these plans are not applicable to the SMI PCC Plant in Camas, WA. Please refer to Appendix 2 of the Plan for a list of the sections that are not applicable.
