

24 August 2005

Ed Abbasi, P.E.
Department of Ecology
Northwest Regional Office
3190 - 160th Ave. SE
Bellevue, WA 98008-5452

Dear Mr. Abbasi:

As you know, the Port of Seattle ("the Port") and Citizens Against Seatac Expansion ("CASE") have been working together over the last week to develop a unified position on the pending modification of the NPDES permit for Seattle-Tacoma International Airport. Attached please find the results of our efforts. We hope you will find the spreadsheet format easy to understand. Citations are to the page numbers of the 5-10-05 version of the draft modified permit. The spreadsheet identifies for Ecology the parties' suggested approach to addressing the comments raised in the previously submitted letters written by Greg Wingard (on behalf of the Regional Commission on Airport Affairs), Rick Poulin (on behalf of CASE) and the Port of Seattle. These suggested responses fall into four categories

1. Ecology requested to respond to comment but not change permit
2. Ecology is requested to respond to comment and change permit as follows
3. Parties agree to withdraw comment; no response required
4. No agreement reached on comment; comment stands and response requested

Thus, only the last category (Category 4) is silent on a specific recommended course of action. Note that Item 1 (BOD limits) will also require a corresponding change to the Factsheet.

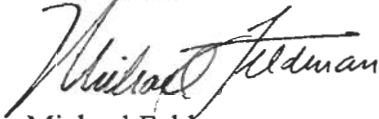

As you are aware, under federal and state law either party can appeal the pending permit modification. However, the Port and CASE have agreed not to initiate an appeal of any issues resolved by this collaborative process. In other words, as long as the final permit modification reflects the suggestions that fall within Categories 1, 2, or 3, then neither CASE nor the Port would appeal the modified permit. The parties reserve the right to appeal any item that falls into Category 4.

We greatly appreciate the opportunity that you and Ecology's management have provided to give us the time needed to work out these contentious issues. We hope you agree that this collaboration represents a sincere attempt on the part of both CASE and the Port to avoid the

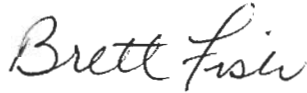

Mr. Ed Abbasi

difficulties and uncertainties of litigation, while at the same time arriving at an improved and workable permit.

Very truly yours,

Item	Source of Comment	Citation and Nature of Comment	Agreed Disposition Within Modified Permit
1.	Wingard, p. 1 para 4	Page 13. Part I, S1, Table 1-A, Final Effluent BOD Limits	<p>Ecology is requested to respond to comment and change permit as follows.</p> <p>Change second paragraph to read:</p> <p>“Beginning from July <u>January</u> 1, 2007”</p> <p>Change Table 1-A Final Effluent Limit for BOD₅:</p> <p>November through March (5 months) Monthly Average Concentration – 45 mg/L Monthly Average Load – 500 lbs/day Daily Maximum Concentration – Report only Daily Maximum Load – 3115 lbs/day</p> <p>April through October (7 months) Monthly Average Concentration – 25 mg/L Monthly Average Load – 130 lbs/day Daily Maximum Concentration – Report only Daily Maximum Load – 1340 lbs/day</p>
2.	Wingard, p. 2 para 1	Page 42. AKART Pipeline Compliance Schedule	<p>Ecology is requested to respond to comment and change permit as follows.</p> <p>Condition S10 to be amended:</p> <p>Construction complete: June 30, 2006 Start Up Testing: July 1, 2006 to Dec. 31, 2006 Compliance deadline: January 1, 2007</p>
3.	Wingard, p. 2 para 3	Page 8. Part I, Summary of Report Submittals	Parties agree to withdraw comment; no response required.

Item	Source of Comment	Citation and Nature of Comment	Agreed Disposition Within Modified Permit
4.	Wingard, p. 3, para 1	Page 9. Part II, Summary of Report Submittals, CRWES Sampling and QAP	Ecology is requested to respond to comment and change permit as follows. Change first submittal date from July 1, 2004 to "no later than July 1, 2005."
5.	Wingard, p. 3 para 2	Page 13, Table 1-A, Final Effluent Limitations, footnote b	Ecology is requested to respond to comment and change permit as follows. Strike last sentence: "The maximum daily effluent limitation is defined as the highest allowable daily discharge. The daily discharge means the discharge of a pollutant measured during a calendar day. For pollutants with limitations expressed in units of mass, the daily discharge is calculated as the total mass of the pollutant discharged over the day. For other units of measurement, the daily discharge is the average measurement of the pollutant over the day. "
6.	Wingard, p. 3, para 3	Page 14, Table 1-B, Benchmark monitoring	Parties agree to withdraw comment; no response required.
7.	Wingard, p. 3, para 4	Page 15, S1.D, Mixing Zone	No agreement reached on comment; comment stands and response requested except the parties agree that the date should be changed to reflect the compliance deadline change noted in Item 2 (January 1, 2007).
8.	Wingard, p. 3 para 5	Page 15, S2.A, Monitoring	Ecology is requested to respond to comment and change permit as follows. Re-insert COD as parameter.
9.	Wingard, p. 4, para 1	Page 16, S2 Boiler Blowdown	Parties agree to withdraw comment; no response required.

Item	Source of Comment	Citation and Nature of Comment	Agreed Disposition Within Modified Permit
