Kennewick, WA 99337

**RE: Application for Renewal of State Wastewater Discharge Permit Number ST5529**

Dear Mr. Burkhead:

Permit No. ST5529, issued for the discharge of treated wastewater from Community Water and Sewer District, expires on September 30, 2013. Washington's Water Pollution Control Law, Chapter 90.48 Revised Code of Washington (RCW), requires an application for renewal of this permit.

A permit application form is enclosed. I am also enclosing a copy of your expiring permit and August 22, 2007 application.

If you would prefer an electronic version of the application, you can access the application forms on the Internet at <http://www.ecy.wa.gov/programs/wq/permits/forms.html>. Please complete the application and return it by **September 30, 2012** to:

Cindy Huwe, Permit Coordinator  
Department of Ecology  
Central Regional Office  
15 West Yakima Avenue, Suite 200  
Yakima, WA 98902

Federal and state regulations require applications to be signed as follows:

- For a municipality, State, Federal, or other public facility, by either a principal executive officer or ranking elected official.

The permit application is to be complete and accurate upon submittal.

The Department of Ecology (Ecology) permit manager for your facility is Jim Yates. If there have been significant changes to the facility or to the character of the wastewater treated (for example, a new industry is discharging to the sewer system), you may need to fill in additional sections. Please submit any additional information that may help Ecology determine the impact of your discharge upon ground or surface waters.

If you have any questions about the application or the permitting process, call me at 509/457-7105 or by e-mail at [cynthia.huwe@ecy.wa.gov](mailto:cynthia.huwe@ecy.wa.gov).

Sincerely,

Cindy Huwe  
Permit Coordinator  
Water Quality Program
