**RE: Coverage under the Fresh Fruit Packing Industry General Permit
Permit No. WAG435203**

Dear Philip Wachsmith:

On July 20, 2016, the Washington State Department of Ecology (Ecology) reissued the Fresh Fruit Packing Industry General Permit (permit). Ecology is issuing your facility coverage under the new permit based on the information you provided in your application and coverage modifications, if any, that have been subsequently submitted. A copy of your new permit is enclosed. The effective date of the new permit is September 1, 2016.

Coverage Page and Authorization

Coverage under this general permit is limited to the discharges specified on the enclosed coverage page. **Retain the enclosed coverage page on site. The enclosed coverage page is the official record of permit coverage for your site.** Please review all of the information on your coverage page. Contact Ecology if changes are necessary.

Electronic Discharge Monitoring Reports (WQWebDMR)

The first monitoring period begins on **January 1, 2017** for Annual Discharge Monitoring Reports (ADMRs) and **the first month following permit coverage** for Monthly Discharge Monitoring Reports (MDMRs).

By **March 1, 2017**, Permittees without electronic reporting waivers will submit Discharge Monitoring Reports (DMRs) through WQWebDMR. If you have previously submitted an Electronic Signature Agreement Form (ESAF) you do not need to submit another one.

You can find more information regarding WQWebDMR on our website at:
<http://www.ecy.wa.gov/programs/wq/permits/paris/webdmr.html>.
