October 4, 2016

CERTIFIED MAIL 7011 1150 0000 7881 6646

The Honorable Scott Higgins
Mayor of Camas
1620 Southeast 8th Avenue
Camas, WA 98607

Re: Termination of National Pollutant Discharge Elimination System (NPDES) General Permit Number WAG641006– City of Camas’ Former Water Treatment Plant

Dear Mayor Higgins:

The city of Camas no longer produces or treats water from the water treatment plant that is located at 308 Northeast 35th Avenue, Camas. The Department of Ecology (Ecology) inspected the treatment plant on August 23, 2016, to determine if a permit is still required.

There does not seem to be any reasonable potential for backwash wastewater reaching waters of the State. Therefore, we are terminating permit coverage for the city of Camas’ former water treatment plant.

NPDES General Permit Number WAG641006 is terminated as of September 9, 2016, the date which Ecology received the request for termination.

This permit termination may be appealed. Your appeal must be filed within 30 days from the receipt of this notification with the Pollution Control Hearings Board. At the same time, a copy of the appeal must be sent to the Department of Ecology.

You must file your appeal with The Pollution Control Hearing Board.
