RE: Extension of National Pollutant Discharge Elimination System (NPDES) Permit WA0045144

Dear Mr. Adams:

Thank you for completing an application form for the renewal of NPDES Permit No. WA0045144, received by this office on December 3, 2013. Ecology has reviewed and accepted Liberty Lake Sewer and Water District's application as sufficiently complete on March 2, 2016. We are in the process of renewing the permit, however, the renewal permit could not be issued by the expiration date of the current permit; June 30, 2016. Liberty Lake Sewer and Water District's permit has been administratively extended effective as of the permit's expiration date. This extension allows for continued discharge as indicated under the existing permit issued June 23, 2011.

In accordance with the Washington State Administrative Procedures Act, RCW 34.05.422 (3), Liberty Lake's permit and the terms and conditions thereof remain in force until the effective date of a new permit. Please continue to comply with all requirements of your existing NPDES permit and any temporary permit provisions associated with the renewal application accepted on March 2, 2016. Liberty Lake will have an opportunity to review the proposed permit prior to issuance by Ecology.

Please accept our apology for the delay in getting this extension letter sent to your facility.

Please contact Diana Washington, Permit Unit Supervisor, at (509) 329-3504 or [dwas461@ecy.wa.gov](mailto:dwas461@ecy.wa.gov) if you have any questions about the extension or the permitting process.

Sincerely,

James M. Bellatty  
Section Manager  
Water Quality Program
