RE: Extension of National Pollutant Discharge Elimination System (NPDES) Permit WA0093317

Dear Mr. Cooke:

Thank you for completing an application form for the renewal of NPDES Permit No. WA0093317, received by this office on October 1, 2015. Ecology has reviewed and accepted the Spokane County's application as sufficiently complete on November 6, 2015. We are in the process of renewing the permit, however, the renewal permit will not be issued by the expiration date of the current permit; November 30, 2016. Spokane County's permit will be administratively extended effective as of the permit's expiration date. This extension allows for continued discharge as indicated under the existing permit issued November 29, 2011.

In accordance with the Washington State Administrative Procedures Act, RCW 34.05.422 (3), Spokane County's permit and the terms and conditions thereof remain in force until the effective date of a new permit. Please continue to comply with all requirements of your existing NPDES permit and any temporary permit provisions associated with the renewal application accepted on October 1, 2015. Spokane County will have an opportunity to review the proposed permit prior to issuance by Ecology.

Please contact Diana Washington, Permit Unit Supervisor, at (509) 329-3504 or by email at dwas461@ecy.wa.gov if you have any questions about the extension or the permitting process.

Sincerely,

James M. Bellatty
