June 13, 2014

Bill Monson
Monson Bulk Crush
63615 East Jacobs Rd, NE
Benton City, WA 99320

Dear Mr. Monson:

**RE: Public Notice of Application for Renewal of State Waste Discharge Permit
No. ST0501283 for Monson Bulk Crush Facility (road dust abatement)**

Reference is made to the subject application, submitted under the provisions of the Washington State Water Pollution Control Act, for a permit to discharge treated wastewater into public waters of this state.

Your application is a matter of public record. State Water Pollution Control Laws requires publishing of a legal Public Notice which describes the discharge for any operation. This is to give the public a chance to be aware of, and comment on any wastewater treatment and disposal facilities. In compliance with this requirement, enclosed is a copy of the Public Notice describing your wastewater discharge. The Department of Ecology will publish this notice in the "Legal Classified Section" of the **Tri City Herald** on **June 18**, and **June 25, 2014**. There will be a 30 day comment period from the last publication date. Comments received during this period will be considered in the formulation of the temporary permit.

Since the Department is unable to act upon the application during the 60 days following acceptance on June 5, 2014, according to RCW 90.48.200, the application and attachments will provide the basis for a **Temporary Permit**. That permit will become effective **30 days after the final publication date**, provided:

1. no significant comments are received;
2. the details of monitoring, reporting and interim limits are worked out and appended to the application; and
3. the permit application fee has been paid.

The Temporary Permit will remain valid for up to five years or until a formal permit can be written.

Should you have any questions about this process, please call me at 509/457-7105.

Sincerely,

Cindy Huwe
Permit Coordinator
Water Quality Program
