Re: National Pollutant Discharge Elimination System (NPDES)  
City of Anacortes Wastewater Treatment Plant; Permit WA0020257

Dear Ms. Fox:

The Washington State Department of Ecology (Ecology) acknowledges receiving a NPDES permit renewal application for the City of Anacortes Wastewater Treatment Plant on December 27, 2016. The application has been reviewed and accepted as complete on January 3, 2017.

Your current NPDES permit has an expiration date of June 30, 2017. Renewal of your permit is in process; however, the permit may not be issued by the expiration date. If your new permit is not issued and effective by the current permit's expiration date, then the current permit and its terms and conditions are administratively extended and will remain in effect and enforceable until Ecology issues a new permit and it becomes effective, in accordance with the Washington State Administrative Procedures Act (RCW 34.05.422(3)) and Washington Administrative Code 173-220-180(5).

If you have any questions regarding the application or the development of your renewal permit, please contact Laura Fricke at (425) 649-7062 or Email at [lfri461@ecy.wa.gov](mailto:lfri461@ecy.wa.gov)

Sincerely,

Tricia Miller  
Permit Coordinator  
Northwest Regional Office
