**RE: Second Request for Application for Renewal of State Wastewater Discharge
Permit No. ST0009213 for Kenyon Zero Storage - Prosser**

Dear Mr. Mears or Mr. Schloss:

On November 3, 2016, the Department of Ecology (Ecology) sent a letter requesting a renewal application for Kenyon Zero – Prosser Facility, be completed and returned to Ecology by **December 31, 2016**. As of the date of this letter, Ecology has not received the application.

Ecology issued Permit No. ST0009213 authorizing Kenyon Zero Storage - Prosser to discharge process wastewater to an evaporation lagoon. This permit is due to expire on **December 31, 2017** and requires an application for its renewal in order to continue discharging wastewater into state waters. Ecology has been issuing all recent State permits with a one year advance requirement for application submittal, based on the lead time required to prepare modern permits.

Completing the Application

Permit application form 040-179 is enclosed. I am also enclosing a copy of your expiring permit and July 11, 2011 application. Application form 040-179 is available on the Ecology website at <http://www.ecy.wa.gov/programs/wq/permits/forms.html>.

Please complete all of the enclosed permit application. Please submit any additional information that you feel may help Ecology determine the potential impact of your discharge upon the groundwater.

Please mail the **original, signed application** by **March 1, 2017** to:
