**RE: Minor Revision of the Fact Sheet Addendum for Farwest Fabricators  
Permit No. ST0009193**

Dear Mr. Carter:

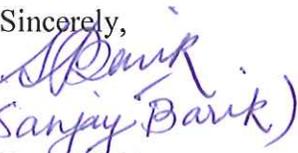

It has been brought to the Department of Ecology's attention, errors found in Section 4. Local Limits Evaluation of the Fact Sheet Addendum for FarWest Fabricators.

Enclosed is a replacement Fact Sheet Addendum for Permit No. ST0009193. The revisions include the following:

- *Change Tank 2 discharge to about 500 gallons, once a week, 26,000 gallons per annum (previously Tank 2 discharges approximately 18,000 gallons per annum)*
- *Change to Tanks 1 and 3 (previously Tanks 1 and 2)*
- *Change to Tank 1 holds 900 gallons and Tank 3 holds 500 gallons for total of 1400 gallons (previously 1000 gallons)*
- *Added Debbie Dougherty's January 3, 2017 comments to Appendix D -- Response to Comments*

Should you have any questions, please contact Sanjay Barik, Water Quality's Technical Unit Manager at 509/454-4247.

Sincerely,

*for*   
(Sanjay Barik)

David B. Bowen  
Section Manager  
Water Quality Program
