Section C: Summary of Findings/Comments															
BACKGROUND															
The Towne Place Suites by Marriott project is covered under the National Pollutant Discharge Elimination System (NPDES) Construction Stormwater General Permit (CSWGP). Ecology's stormwater unit has conducted an inspection at this construction site in the past. The purpose of this inspection is to conduct a compliance inspection and to provide technical assistance as appropriate. All observations noted in this report occurred at the time of the inspection.															
INSPECTION/OBSERVATIONS															
<p>Significant efforts to comply with the NPDES CSWGP were observed during this inspection.</p> <p>The recycled concrete in the construction access was removed and replaced with quarry spalls.</p> <p>The construction road had an application of crushed rock placed over the recycled concrete.</p> <p>No track out of sediment was observed.</p> <p>The gutter line on the east side of Pacific Hwy free of sedimentation.</p> <p>The employee parking was segregated from the primary work area and stabilized with crushed rock.</p> <p>All unworked soils were temporarily stabilized with straw mulch.</p> <p>BMP implementation/maintenance was occurring while I was on-site</p> <p>The Discharge Monitoring Reports are current.</p> <p><u>No violations observed, well done!</u></p>															
Section D: Compliance/Recommendations															
<ul style="list-style-type: none"> Continue to apply adaptive management as the project progresses. Continue to achieve AKART. Continue to meet all conditions of the CSWGP. 															
For assistance with compliance issues or recommendation regarding Best Management Practices (BMPs) see the 2014 Stormwater Management Manual for Western Washington (SWMMWW), Volumes II, Construction Stormwater Pollution Prevention and Volume IV, Source Control BMPs. The link below accesses the SWMMWW. The SWMMWW has hotlinks															

imbedded in the text to easily access information. All BMPs noted in the table of contents are hotlinked to the specific information within the SWMMWW.

<http://www.ecy.wa.gov/programs/wq/stormwater/manual/2014SWMMWWinteractive/Content/Resources/DocsForDownload/2014SWMMWW.pdf>

The Department of Ecology has the authority to issue formal enforcement actions including issuance of orders and civil penalties of up to \$10,000 per day per violation for violations of your NPDES permit and/or state laws and regulations.
