Re: National Pollutant Discharge Elimination System (NPDES)
Permit No. WA0022641; Lighthouse Point Water Reclamation Facility

Dear Ravyn Whitewolf:

The Washington State Department of Ecology (Ecology) acknowledges receiving a NPDES permit renewal application for the Lighthouse Point Water Reclamation Facility on May 31, 2017. The application has been reviewed and accepted as complete.

Your current NPDES permit has an expiration date of May 31, 2018. Renewal of your permit is in process; however, the permit may not be issued by the expiration date. If your new permit is not issued and effective by the current permit's expiration date, then the current permit and its terms and conditions are administratively extended and will remain in effect and enforceable until Ecology issues a new permit and it becomes effective for your facility, in accordance with the Washington State Administrative Procedures Act (RCW 34.05.422(3)) and Washington Administrative Code 173-220-180(5).

If you have any questions regarding the application or the development of your renewal permit, please contact Mark Henderson at (360)715-5208 or email at mhen461@ecy.wa.gov

Sincerely,

Tricia Miller
Permit Coordinator
Northwest Regional Office
