RE: Construction Quality Assurance Plan, July 2017 for WW 02-05 Biosolids Dewatering Project,
Port Angeles Wastewater Treatment Plant

Dear Mr. Fulton:

Pursuant to Revised Code of Washington (RCW) 90.48.110, and Chapter 173-240 Washington Administrative Code (WAC), the above-referenced Construction Quality Assurance Plan (CQAP) has been reviewed and is hereby **Approved**. One copy of the approved document is being returned for your records. We understand that engineers may make minor revisions and clarifications to the review copy submitted to the Department of Ecology (Ecology).

This approval shall not relieve the owners of this facility from any responsibilities or liabilities as a result of noncompliance with the discharge permit during construction or in operation of facilities approved herein.

Prior to completion of construction, an operation and maintenance manual prepared in accordance with WAC 173-240-080 must be submitted.

Upon completion and prior to the use of the above-referenced project or portions thereof, the enclosed Declaration of Construction of Water Pollution Control Facilities shall be completed and returned with one complete set of as-built drawings by the professional engineer in responsible charge of inspection of construction of the project.

If you have any questions regarding this letter, please contact Dainis Kleinbergs, Facility Manager, Municipal Operations Unit at (360) 407-7050 or dainis.kleinbergs@ecy.wa.gov.

Sincerely,
