7. Page 9: See Page 8 comments.
8. Page 10: See Page 8 comments.
9. Section F.1: The Yes box was marked on the previous application. Please verify whether this site has an inspection and sampling manhole.
10. Section H.3: The facility should evaluate whether additional boxes should be marked for Manufacturing, Material Handling, and Material Storage.
11. Section H.4.b: The application indicates materials are stored on spill containment pallets. The Spill Prevention box could be marked in this section.
