Re: Receipt of NPDES Permit Application
City of Bremerton Wastewater Treatment Plant; Permit No. WA0029289

Dear Mr. Coxon:

The Washington State Department of Ecology (Ecology) acknowledges receiving a NPDES permit renewal application for the City of Bremerton Wastewater Treatment Plant on December 7, 2017. The application has been reviewed and accepted as complete on February 27, 2018.

Your current NPDES permit has an expiration date of July 31, 2018. Renewal of your permit is in process; however, the permit may not be issued by the expiration date. If your new permit is not issued and effective by the current permit's expiration date, then the current permit and its terms and conditions are administratively extended and will remain in effect and enforceable until Ecology issues a new permit and it becomes effective for your facility, in accordance with the Washington State Administrative Procedures Act (RCW 34.05.422(3)) and Washington Administrative Code 173-220-180(5).

If you have any questions regarding the application or the development of your renewal permit, please contact Kevin Leung at (425) 649-7207 or Email at klev461@ecy.wa.gov

Sincerely,

Tricia Miller
Permit Coordinator
Northwest Regional Office
