Re: NPDES Conditional No Exposure Certificate

Dear Ms. Mauger:

Enclosed is the report from the Department of Ecology's recent Industrial Stormwater NPDES General Permit compliance inspection conducted at your facility on July 25, 2018. The inspection found Linear Technology is no longer operating the site. You are required to contact the Department of Ecology to terminate your Conditional No Exposure Certificate.

Please email me at kevin.hancock@ecy.wa.gov or call (360) 407-6298 if you have any questions, comments, or would like additional technical assistance.

Sincerely,

Section D: Summary of Findings/Comments

(Attach additional sheets of narrative and checklists, including Single Event Violation codes, as necessary)

The purpose of the inspection was to verify that the facility continues to meet the conditions for a Conditional No Exposure Certificate (CNE). A CNE authorizes the facility to discharge stormwater to a roadside ditch that flows to an unnamed stream, and the Columbia River.

The inspection found that the facility was sold to Analog Devices, and is no longer operating at this site. A new company Analog Devices has applied for a CNE.

REQUIREMENT:

1. Within 14-days contact Clay Keown at the Department of Ecology notifying him that Linear Technology is terminating their CNE:
