RE: Fresh Fruit Packing Industry Permit No. WAG435186

Dear Roger Ellis:

Attached are your Yearly Facility Reports for your facility. Deadline for submittal (postmark) is January 31, 2019. These are for the 2018 calendar year.

Even though you have received a waiver from electronic reporting, please do still use the codes for various items. Just write or type a needed code in the appropriate box when completing the forms.

- M—Conditional Monitoring (For example: if you do not use chlorine based products for any activities, you would put "M" on all quarters for total residual chlorine. Remember, this is just an example and used for illustrative purposes only).
- C—No Discharge for Monitoring Period (if you do not discharge for a whole quarter at any particular outfall, than write or type a 'C' in all blocks).
- E—Missed sample (if you missed a sample for any item that you should have sampled for, please write or type in 'E' in the appropriate box).

If you have any questions or concerns please call Marcia Porter at (509) 454-7864, or email [marcia.porter@ecy.wa.gov](mailto:marcia.porter@ecy.wa.gov).

Sincerely,

Marcia Porter  
General Permit Manager
