RE: G19 Certification for 2018 Annual Report for the Phase I Municipal Stormwater Permit

Dear Sir or Madam:

The Washington State Department of Ecology (Ecology) requires the use of an online form for the submittal of an Annual Report for the Municipal Stormwater General Permit. As a result, King County must access this online submittal form through Washington's secure gateway to many government services: SecureAccessWashington (SAW).

Pursuant to the requirements of the Phase I Municipal Stormwater General Permit section G19, King County is choosing to request authorization for Douglas Navetski, who is responsible for the development and implementation of the County's annual stormwater management program plan for permit compliance, as a duly authorized representative to sign and submit Annual Reports through the WQWebPortal. Please consider this letter and the completed Electronic Signature Agreement Form (ESAF) as written approval for Douglas Navetski as a duly authorized representative with the authorization to sign King County's Annual Report as a formal submittal to Ecology.

Sincerely,

Josh Baldi  
Division Director

**In accordance with the NPDES Phase I Municipal Stormwater Permit Section G19  
(Certification and Signature):**

*I certify under penalty of law, that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for willful violations.*
