

**STATEMENT OF BASIS FOR  
STATE WASTE DISCHARGE PERMIT ST0006227**

December 4, 2018

**1. GENERAL INFORMATION**

Facility: Orbit Industries, LLC (Orbit)  
778 South 27th Street  
Washougal, WA 98671

**2. REQUEST FOR MODIFICATION**

On November 27, 2018, Orbit requested "...modification of the permit to submit the monthly flows every quarter...."

Ecology reviewed the request and concluded that:

- All parameters other than flow and Total Toxic Organics (TTO) are monitored twice a year in January and July.
- TTO are monitored once a year in January or certification needs to be submitted in lieu of the TTO monitoring.
- Flow is monitored continuously when the discharge occurs.

Ecology concurs with the request and modifies monthly DMR submittal to quarterly as follows:

- a. Submit monthly DMRs at a quarterly frequency, unless otherwise specified in the permit. Quarterly submittal periods are January through March, April through June, July through September, and October through December. The Permittee must submit the DMRs for the months that comprise the quarter. Quarterly submittals are **due on the 30<sup>th</sup> day of the month following the end of the quarter.**
