RE: Cancellation of State Permit No. ST0009193 for Farwest Operating, LLC (Farwest Fabricators), Effective December 31, 2018

Dear Norm Thomas:

Based upon information received February 25, 2019, it is the Department of Ecology's understanding that the referenced facility has eliminated the wastewater discharge from the powder coating line to the City of Moxee collection system as of November 1, 2018, and that there is no process wastewater discharge of any kind.

Therefore, State Waste Discharge Permit No. ST0009193 for Farwest Operating, LLC (Farwest Fabricators) is hereby canceled effective December 31, 2018. This letter constitutes final administrative disposition of the referenced permit.

In the event a change in the reported circumstances causes this activity to have any discharge to surface waters and/or non-surface waters you will need coverage under either a State, National Pollutant Discharge Elimination System (NPDES), or General Permit. Accordingly, you should contact the Water Quality Program at this office prior to making any changes in the destination, character, or quantity of the discharge.

If you have any questions in this matter, please contact Jim Leier at 509/454-4247.

Sincerely,

David B. Bowen
