

**Pierce County  
Municipal SW Phase I General Permit  
WAR044002  
2018 MS4 Annual Report  
Question 13**

The NPDES Phase I Municipal Stormwater Permit requires Pierce County to provide public involvement opportunities concerning the decision-making processes involving the development, implementation and updates of the Stormwater Management Program Plan (SWMP Plan).

In 2018, Pierce County provided detailed briefings regarding SWMP Plan and the Surface Water Management – Water Quality and Watersheds Section Workplan to the County’s Storm and Surface Water Advisory Board (SWAB) and placed a current version of the SWMP Plan on the County’s webpage for public review and comment.
