Re: Receipt of NPDES Permit Renewal Application
Permit No. WA0022403; City of Snoqualmie WWTP

Dear Mr. Holmes:

The Washington State Department of Ecology (Ecology) acknowledges receiving a NPDES permit renewal application for the City of Snoqualmie Wastewater Treatment Plant on October 1, 2018. The application has been reviewed and accepted as complete on November 6, 2018.

Your current NPDES permit has an expiration date of April 30, 2019. Renewal of your permit is in process; however, the permit may not be issued by the expiration date. If your new permit is not issued and effective by the current permit's expiration date, then the current permit and its terms and conditions are administratively extended and will remain in effect and enforceable until Ecology issues a new permit and it becomes effective for your facility, in accordance with the Washington State Administrative Procedures Act (RCW 34.05.422(3)) and Washington Administrative Code 173-220-180(5).

If you have any questions regarding the development of your renewal permit, please contact Lazaro Eleuterio at (425)649-7027 or Email at lele461@ecy.wa.gov.

Sincerely,

Tricia Miller
Permit Coordinator
Northwest Regional Office
