Re: National Pollutant Discharge Elimination System (NPDES)  
City of Langley Wastewater Treatment Plant; Permit No. WA0020702

Dear Randi Perry:

The Washington State Department of Ecology (Ecology) acknowledges receiving a NPDES permit renewal application for the City of Langley Wastewater Treatment Plant on February 27, 2019. The application has been reviewed and accepted as complete on March 13, 2019.

Your current NPDES permit has an expiration date of August 31, 2019. Renewal of your permit is in process; however, the permit may not be issued by the expiration date. If your new permit is not issued and effective by the current permit's expiration date, then the current permit and its terms and conditions are administratively extended and will remain in effect and enforceable until Ecology issues a new permit and it becomes effective for your facility, in accordance with the Washington State Administrative Procedures Act (RCW 34.05.422(3)) and Washington Administrative Code 173-220-180(5).

If you have any questions regarding the development of your renewal permit, please contact Maia Hoffman at (425) 649-7146 or Email at [maia.hoffman@ecy.wa.gov](mailto:maia.hoffman@ecy.wa.gov)

Sincerely,

Tricia Miller  
Permit Coordinator
