**RE: Notice of Administrative Extension for State Waste Discharge Permit No. ST0009266
for Monson Bulk Crush Facility, Effective February 1, 2018**

Dear Mr. Monson:

Thank you for your application for renewal of State Waste Discharge Permit No. ST0009266 on May 2, 2013 and December 12, 2013. It was reviewed and accepted as complete on June 5, 2014. Because of workload and staffing issues, the Department of Ecology (Ecology) is unable to reissue your permit prior to expiration. When the permit writer assigned to write your permit begins developing a draft permit, you may be asked to provide additional or updated information.

Your administratively extended permit becomes effective **February 1, 2018**, the day following expiration of your existing permit. It will remain in force for up to five years or until further notice by the Department, whichever occurs first. **That means your facility must continue to comply with the terms and conditions of the previous permit, issued on December 28, 2012.**

Your permit fee is subject to the same fee schedule as before. Permit fee billing will be in a separate mailing from the Ecology Fee Unit.

If you have any questions or need assistance, please feel free to contact Cynthia Huwe, Permit Coordinator at 509/457-7105 or cynthia.huwe@ecy.wa.gov.

Sincerely,

David B. Bowen
Section Manager
